About EYE OF THE LAMB:

1920's Baghdad is brought to life as we hear the story of Gertrude Bell's improbable transformation from Victorian aristocrat to "queen" of Iraq. A death-defying, globe trotting adventurer, Gertrude (played by Annie Enneking) tells us how she gained "Personhood" in the Arabian Peninsula and drew the borders of modern day Iraq. EYE OF THE LAMB takes a frank look at British Imperialism in the Middle East and the contradictory woman who played a pivotal role in colonization, while simultaneously fighting against it.
