**C. Practice with your permit**

**a. Age requirement**

- i. If you are 18 years of age or under, you must apply for and hold a Minnesota instruction permit for at least six months before taking a road test.
- ii. If you are 19 years of age or older, you must apply for and have a permit for at least three months before taking a road test. This includes applicants who can't show proof of previously having a license or instruction permit.
- iii. When practicing with a permit, you must be accompanied by a licensed adult driver. If you are under 18, the supervising driver must be 21 years of age or older. If you are 18 or older, the supervising driver must be an adult of 18 years of age or older.

**b. What if I have a driving license in my home country?**

Students with foreign licenses who are over 19 years old are required to pass both the written and road tests. Once they have passed the permit test, the students may pass the road test at their earliest convenience (and don't have to wait 3 months). There is no fee for the permit because no card is issued. However, you do need to translate your foreign license (if it has no English on it) through an approved translation vendors. A list of approved vendors is on the DMV website. This can get pretty pricey, oftentimes it might be more convenient to just buy the permit, unless you have a time limit.

**c. How to practice**

- i. Ask friends for a favor
- ii. Practice with host family
- iii. Sign up for a driving school (more information on ISP website)
